

# Bendomino™ jr.

## Dominoes with a Twist!

Easy to learn, Bendominoes  
play just like regular dominoes.

Watch a new pattern being created each time you play  
as pieces will curve and twirl around the table.

The original design creates a fun and interesting game  
that is entertaining for the entire family!

### Contents

28 bendominoes

### Purpose of the game

To have the least amount of pieces  
in your hand at the end of the game.

### Preparation of the game

At the beginning of the game,  
place the 28 BENDOMINOES face down  
on the table and mix them.

2 Players: each player takes 7 Bendominoes.

3 Players: each player takes 6 Bendominoes.

4 Players: each player takes 5 Bendominoes.

The remaining pieces represent the stock.

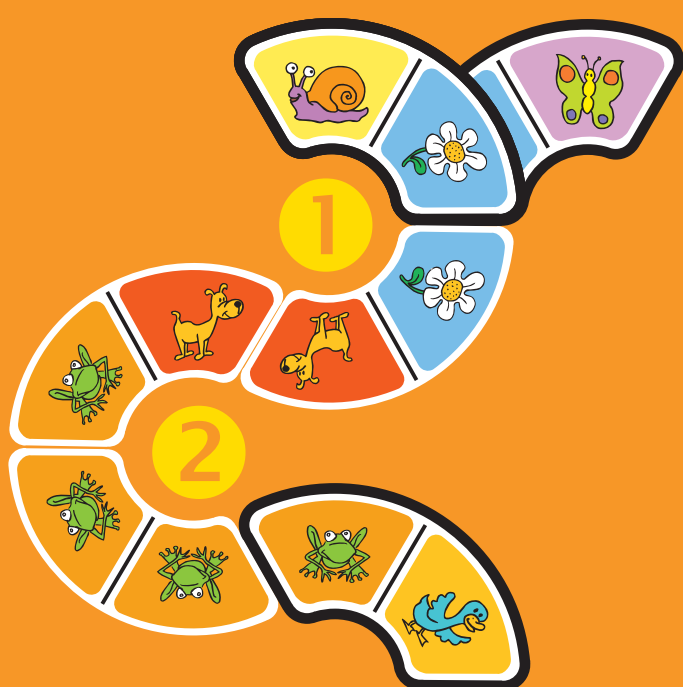

### Playing the game

The youngest player starts the first game by placing  
any Bendomino on the middle of the table.

For the next games, the player who won  
the previous game starts.

Taking turns in a clockwise direction, each player tries to match a Bendomino by design to either end of the Bendomino chain.

To be accepted the new piece needs to match, but also has to fit!

**Example 1** The new Bendomino only needs to have a matching design, since it can be played 2 ways (to the right or left).

**Example 2** The new Bendomino needs to have a matching design and needs to go in the proper direction.

In this example, only a Bendomino curving to the right can be played.

Draw :

If you cannot play a Bendomino from your hand, you must draw one piece from the stock and pass your turn.

## End of the Game

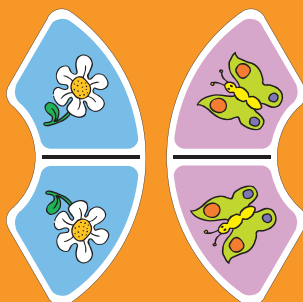

A game ends when:

- A player has no Bendominoes left to play
- The stock is empty and no player can play any piece.

## Winning the game

You win when:

- 1- You are the first to play all your pieces.
- 2- You have the least amount of pieces at the end of the game.

2 to 4 players – Ages 3 and up – Play time: 10 minutes
